# COMMUNICATION: REQUEST TO RE-ISSUE OFFICE ACTION

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

A phone call from Examiner Spivack on 22 September 2008 brought to our attention that a Final Office Action was mailed on 19 March 2008 in the above-identified application. An initial check of Applicants' representatives' docket system indicated no outstanding Office Action. Accordingly, Applicants' representatives checked the transaction history of the application through the Patent Application Information Retrieval (PAIR) website.

The PAIR transaction history for this application indicated that a Final Office Action was mailed on 19 March 2008 to Buchanan Ingersoll & Rooney PC, P.O. Box 1404, Alexandria, Virginia, 22313-1404. Also, as provided by PAIR, a request for Change of Address was submitted to the Patent Office on 13 March 2008, changing the official correspondence address from Buchanan Ingersoll & Rooney to Crowell & Moring LLP, Intellectual Property Group, P.O. Box 14300, Washington, DC 20044-4300. The Correspondence Address Change was entered into the record on 17 March 2008, prior to the Final Office Action's mail date. Accordingly, the Final Office Action was not mailed to the correspondence address of record.

The Final Office Action mailed to Buchanan Ingersoll & Rooney, P.O. Box 1404, Alexandria, Virginia, 22313-1404 was not received at Crowell & Moring LLP, the official correspondence address of record.

Because the Final Office Action mailed 19 March 2008 was not received by Applicants' representatives at the official correspondence address, Applicants did not know of and were not able to respond to the outstanding Office Action. However, Applicants have <a href="mailto:no">no</a> intention of allowing the application to go abandoned. Accordingly, Applicants respectfully request that the Final Office Action be resent to the official correspondence address of record with a new mailing date and the time period for response be reset in accordance with the new mailing date.

In support of this request, Applicants attach hereto the following documents:

- (a) copy of the transaction history page from PAIR showing the Final Rejection mailed on 19 March 2008 and showing the Correspondence Address Change entered on 17 March 2008;
- (b) copy of the Office Action mailed 19 March 2008 accessed from PAIR showing the incorrect addressee;
  - (c) copy of Correspondence Address/Fee Address Change; and
- (d) copy of the docket record for the above-identified application generated by Applicants' representatives' docketing software where the non-received Final Office Action would have been entered had it been received. The docket record shows that last activity in this application was the filing of a Response to Office Action on 7 December 2007 with a three-month extension of time. A Final Rejection was not entered into the docketing record.

Applicants respectfully request that the Final Office Action be resent to the official correspondence address of record, Crowell and Moring LLP, Intellectual Property Group, P.O. Box 14300, Washington, DC 20044-4300 and that the time period for submission of a response be reset in accordance with the new mailing date. As such, Applicants respectfully submit that the application should **not** be held abandoned.

Applicants respectfully submit that no fees should be due in accordance with this request; however, if any fees are necessary, please charge Deposit Account No. 05-1323 (Docket #104006-B130119).

Please contact the undersigned should you have any questions regarding this communication and request.

Respectfully submitted,

Date: 25 September 2008

Melissa M. Hayworth

Registration No. 45,774

Applicants' Amendment filed December 7, 2007 is acknowledged. Claims 1-6 and 9-18 remain under consideration.

In the last Office Action claims 1-6 and 9-18 were rejected under 35 U.S.C. 103(a) as being unpatentable over Brulls, M., U.S. Patent 6,730,685, in view of Facts & Comparisons. It was asserted Brulls teaches pharmaceutical compositions that are combinations of tenatoprazole and H<sub>2</sub>-blockers, such as ranitidine. See column 7, lines 22-26. Tenatoprazole is exemplified as a compound of Formula I at the top of column 12. Brulls' teaching is drawn to treatment of diseases relating to gastric hyperacidity, such as gastric and duodenal ulcers and reflux esophagitis, as required by instant claims 17 and 18. See columns 6-7 under Use of the Invention. A dosage range for tenatoprazole is taught to be 1-100 mg once or twice a day (column 7, lines 14-15). Both oral and parenteral administration is disclosed in column 3, lines 1-8. As required by instant claim 5, sodium or potassium salts are disclosed in claims 4 and 5. As required by instant claims 4, 6, 10 and 11, Facts & Comparisons teaches an oral dose of the H<sub>2</sub>-blocker ranitidine to be 150 mg and a parenteral dose to be 50 mg.

Applicants argue the combination of tenatoprazole and a histamine H2-receptor antagonist yields unexpected and superior results compared to the administration of other proton pump inhibitors and other histamine H2-receptor antagonists, used alone or in combination.

Further, Applicants urge Brulls is not specifically directed to tenatoprazole but rather to a general description of all proton pump inhibitors and <u>Facts & Comparisons</u> merely relates to ranitidine, as well as information on dosing, pharmacokinetics and indications of use.

Those proton pump inhibitors contemplated in Brulls' disclosure are clearly set forth in Columns 11 and 12. Tenatoprazole is the first compound at the top of column 12. Formulations

comprising a combination of a proton pump inhibitor and a H<sub>2</sub>-blocker are clearly encompassed in Brulls' disclosure. See column 7, lines 22-26. No unexpected results are shown in Table 2 on page 8 of the instant specification following the administration of a capsule formulation having tenatoprazole 20 mg and ranitidine 200 mg. Applicants have not shown this combination of tenatoprazole and ranitidine to be markedly superior to the control of gastric acidity compared to the administration of each component alone. Improvement of symptoms is entirely expected.

A reference may be applied not only for what it expressly teaches by direct anticipation, but also for what one of ordinary skill in the art might reasonably infer from the teachings. See *In re Opprecht*, 12 USPQ 2d, 1235, 1236 (Fed. Cir. 1989); *In re Bode* 193 USPQ 12 (CCPA 1976). In light of the foregoing, the Examiner concludes that the subject matter defined by the instant claims would have been obvious within the meaning of 35 U.S.C. 103(a).

<u>Facts & Comparisons</u> is applied in the present rejection specifically to show information on dosing, pharmacokinetics and indications of use.

Further, it is not inventive to discover an optimum or workable range by routine experimentation when general conditions of a claim are disclosed in the prior art. See *In re Aller*, 105 USPQ 233,235 (CCPA 1955) and MPEP 2144.05(II). The currently claimed specific weight ratio ranges are not seen to be inconsistent with ranges that would have been determined by the skilled artisan.

Applicants' arguments are not found persuasive. The rejection of record of claims 1-6 and 9-18 under 35 U.S.C. 103 is maintained.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this Final Action is set to expire THREE MONTHS from the mailing date of this Action. In the event a first reply is filed within TWO MONTHS of the mailing date of this Final Action and the Advisory Action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the Advisory Action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the Advisory Action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this Final Action.

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Phyllis G. Spivack whose telephone number is 571-272-0585. The Examiner can normally be reached from 10:30 to 7 PM.

If attempts to reach the Examiner by telephone are unsuccessful after one business day, the Examiner's supervisor, Ardin Marschel, can be reached 571-272-0718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
